

SUPERIOR RECREATIONAL PRODUCTS

SHADE

• VOLUME ELEVEN PRODUCT GUIDE •

Staying protected just got a whole lot cooler.

At Superior Recreational Products (SRP), we provide our customers with standard and custom shade structures for nearly every outdoor location. Our line delivers creative solutions and unique designs while providing protection from the sun’s harmful UV rays. Our 20 years of experience allows us to provide the superior shade products you’ve been searching for.

OUR TOP FEATURES AND BENEFITS

COASTAL COMMUNITIES

Our framework can withstand wind gusts of up to 150 mph with fabric removed.

BLOCK UV RAYS

Our shade fabrics block up to 99% of harmful UV rays, depending on your color.

LONG LASTING FABRIC

Our UV stabilized fabric is rachel-knitted and resists fading, abrading, rotting, shrinkage, and unraveling.

STAY COOL

Depending on the fabric color, you can reduce the temperature of your space up to 25 degrees.

BUILDING CODE

Our team of engineers ensure all shade structures meet local building codes.

SUPERDURABLE

Our Superdurable powder coat is paired with zinc-rich primer — a standard at Superior.

Need another reason to buy?

Most shades have the option of including our **Glide Elbow™**, which allows for quick release of the shade’s fabric. Learn more on page 50.

Bartram Springs Clubhouse
JACKSONVILLE, FLORIDA

The Bartram Springs community in Jacksonville, Florida boasts many attractive amenities. The community set aside 20 acres of its total 1,025 acres for parks and recreation spaces. Among the amenities included in this are a Junior Olympic-sized pool, a Superior playground, fitness center, and a shaded wading pool. The wading pool is completely shaded with a Superior Hip End shade, providing relief to the young children swimming and their parents.

Twin Brooks Golf Course

ST. PETERSBURG, FLORIDA

The Twin Brooks Golf Course in St. Petersburg, Florida is a 9-hole par three golf course that recently received numerous upgrades. Among the upgrades included a custom 19-bay Dugout Cantilever for their driving range. This cantilever shade, which measures 190 ft. wide, provides sun relief to 19 golfers practicing their swing.

Baylor University
WACO, TEXAS

Baylor University's Hurd Tennis Center features 12 outdoor tennis courts, six of which are championship courts. Overlooking the championship courts is the shaded Bradley R. Hulse Grandstand. Superior provided 15 custom cantilever shades that matched the Baylor University green.

Seabrook Island Lake House JOHNS ISLAND, SOUTH CAROLINA

Beautiful Seabrook Island is home to many amenities including the Seabrook Beach Club and the Seabrook Island Lake House. Overlooking the Atlantic Ocean, The Sands at the Beach Club features eight of Superior's Hyperbolic Sail shades in varying dimensions to accommodate for the curved design of the existing pathway. Seabrook loved the Hyperbolic Sails so much, they sought out Superior again for their Lake House, pictured here. The Lake House features sail shades and our Arched Cantilevers.

Seminole County Sports Complex

SANFORD, FLORIDA

The 100-acre Seminole County Sports Complex is home to 15 state-of-the-art athletic fields, batting cages, and walking paths among many other amenities. Superior supplied T-Cantilever shades in various color schemes for spectator seating across all 15 athletic fields. Additionally, we supplied Cantilever Umbrella shades for each field's score keeper and a large sail shade for a picnic area.

Pet Paradise Resort
WESLEY CHAPEL, FLORIDA

Pet Paradise Resort is a state-of-the-art facility offering pet boarding and pet daycare for both cats and dogs. Among the numerous amenities that attracts pet parents to Pet Paradise Resort is the play yard, which features a bone-shaped swimming pool and plenty of shade. The resort utilized our hip shades and created a dual-dome that offers over 1,000 ft. of shaded space.

UMBRELLAS

FLEXIBILITY *meets* STYLE

ALUMINUM FRAME WATERPROOF *umbrella options*

Horizon Umbrella

Ideal for any commercial application, the fixed position Horizon umbrella is the simplest sun shade solution.

** Glide Elbow™ only available up to 30'.*

Our traditional steel frame hip end structures are available as surface or in-ground mount in 8', 10', or 12' height, with or without Superior's Glide Elbow™. Choose between your choice of marine grade powder coat colors and our Traditional Shade fabrics.

Multi-Dome

Multi-Domes — a series of hip end shades that share posts — are a great solution for sports complex seating and parking lots. Multi-Dome shades are an economical way of shading a very large area. To ensure uniform tension throughout your Standard Hip Shade canopy, we may design a Multi-Dome should the length to width ratio of your shade structure require it. Shade fabric can match or have alternating colors. Available in a variety of sizes.

SUPERIOR PRODUCTS
MAXIMUM RESULT *with* MINIMAL EFFORT

When combined, Superior Recreational Products' product lines create complete site environments. Design your space using one superior company. Visit srplayground.com, srpsiteamenities.com, and srpshelter.com to learn more.

With Superior, you know you'll receive a quality shade.

FEATURES AND BENEFITS

TRADITIONAL FABRIC

- Made from 80% water repellent, UV stabilized high density polyethylene fabric that prevents fading from the sun
- Rachel-knitted to prevent fraying and shades 34' and larger receive Kevlar® reinforced corners
- Blocks up to 99% of harmful UV rays, depending upon color choice
- Fabric breathes allowing hot air to rise and escape, thus creating a cooler environment
- Available fabric to meet California State Fire Marshal requirements, NFPA 701, and ASTM E84

STEEL FRAMES

- Coated with Superdurable powder coat, which carries a 5-year limited warranty
- Engineered to withstand wind speeds of up to 150 mph with fabric removed
- All structural tubing complies with ASTM standards
- Our finished product includes 6 mils of powder coat, with 3 being zinc-rich primer and 3 being Superdurable powder coat
- Our powder coat is backed by 5,000 hours of testing per ASTM Method B117

GLIDE ELBOW™

With our Glide Elbow™ quick release mechanism, installation and removal of your fabric is completed with the use of a wrench or cordless drill that has an appropriate sized socket. Not only does our Glide Elbow™ make updating fabric easier, it allows you to easily remove fabric for severe weather. Additionally, metal-on-metal wear is minimized with our fabric hook connection.

SUPERDURABLE POWDER COAT

Our Superdurable powder coat is one of the best in the industry. After removing all surface rust and oil, our steel frames are coated with an Epoxy TGIC Powder Coating Zinc-Rich Primer. After the primer application, Superior applies Superdurable Polyester TGIC powder coating.

1. Original Raw Steel
2. Blasted Nearly White
3. Epoxy TGIC Zinc-Rich Primer
4. Superdurable TGIC Powder Coat

WARRANTY

Superior Recreational Products (SRP) warrants that its product will be free from defects in materials and workmanship as well as maintain structural integrity for the periods listed below from the date of invoice and once SRP has been paid in full. This warranty is in effect only if the product has been assembled and installed strictly in accordance with the setup instructions provided by SRP, good construction practices, and has been subjected only to normal use and exposure.

- Lifetime* Warranty on playground steel and recycled posts, all stainless steel hardware, c-line fittings, and aluminum post caps
- 20-Year Limited Warranty on Steel Shade Structure
- 10-Year Limited Warranty on Shade Fabric
- 5-Year limited Warranty on Site Amenities, cables, and nets
- 1-Year Limited warranty on moving parts and materials not covered above

The Limited Warranty excludes abnormal conditions, contingent liability, cosmetic defects such as scratches, dents, marring, stripping, peeling, or fading; damage due to incorrect installation, vandalism, misuse, accident wear and tear from normal use; exposure to extreme weather, immersion in salt or chlorine water, damage due to sand, salt spray, or other abrasive and corrosive material; unauthorized repair or modification, abnormal use, or lack of maintenance. The warranty does not cover damages due to "acts of God" such as hail, flooding, lightning, tornadoes, sand storms, shifts of terrain, earthquakes, mudslides, and windstorms.

If product has shade fabric and installed in an area exposed to hurricanes, removal of the shade fabric is required when a hurricane warning is issued.

In the unlikely event of failure, SRP reserves the right to alter the design, color, or contributing factors to rectify the condition and help prevent any future reoccurrence(s). SRP has the option to repair or replace any defect in materials.

The warranty is void if any changes, modifications, additions, or attachments are made to the product without the written consent of the manufacturer.

No signs, objects, ornaments, fans, lights, fixtures, or decorations may be hung from the top part of a shade structure unless specifically designed and engineered by the manufacturer. These items may interfere with the fabric causing the warranty to be void.

SRP excludes any implied warranty of merchantability, fitness, or purpose, and there are no warranties which extend beyond the description of the face hereof. Under no circumstances will SRP be responsible for any indirect, special, consequential, incidental, or liquidated damages due to breach of warranty and such damages are specifically excluded from the warranty.

The owner shall notify SRP with original Sales Order Number issued from SRP to arrange for an inspection within 30 days after discovery of any defect under this warranty and before any alteration or repair is made or attempted. This Limited Warranty shall be null and void if the owner makes any alterations in design.

This warranty is the only express warranty given by the company. No person has authority to change or add to these obligations and liabilities. The company reserves the right to determine whether the fault is caused by faulty workmanship, material, or the part that is defective.

Powder Coat

Superior Recreational Products offers a 5-year Limited Warranty for powder coating to the original purchaser. This Limited Warranty is for factory applied finish only. Damage occurring from shipping, erection, vandalism, accidents, or field modification is not covered in this limited warranty and will require field touch-up immediately and periodically thereafter. The owner must report any defect in powder coat at the time the installation is completed. Not covered by this Limited Warranty are acute angles, welds, and end plates.

The Limited Warranty for powder coating provides the following after a 5-year exposure period when applied according to the recommendations listed on the product's technical data sheet and appropriate surface preparation has been utilized.

- The coatings shall retain their original color with a ΔE of <7.5 units for high chroma colors, (Yellows, Reds, Oranges, ETC.) and a ΔE of<5.0 units for low chroma colors, when tested in accordance with ASTM D 2244.
- The coating shall retain a minimum of 50% of its original glass level after washing, when tested in accordance with ASTM D 523.
- The coating shall exhibit chalking no worse than numerical rating of 6, when evaluated in accordance with ASTM D 659-80.

Traditional Steel Frame Shade Structures

Thread shall be 100% expanded PTFE fiber that is high strength and low shrinkage, which carries a 10-year warranty. This warranties that the sewing thread will be free from defects in material and workmanship and will not be damaged by exposure to sunlight, weather, and water. All other warranties are disclaimed.

SRP fabrics carry a 10-year limited manufacturer's warranty from the date of delivery against failure from significant fading**, deterioration, breakdown, outdoor heat, cold, or discoloration. Should the fabric need to be replaced under the warranty, SRP will manufacture and ship new fabric at no charge for the first six years, thereafter pro-rated at 18% per annum over the last four years.

***The colors red and yellow are warranted against significant fading for only two years. If the corners of the fabric are equipped with both holes in the fabric corner PLUS reinforcing straps, BOTH the strap and fabric hole must be placed over each corner hook or the fabric warranty is void.*

Fabric curtains, valences, or flat vertical panels are not covered under the warranty.

Fabric is not warranted where it is installed on a structure that is not engineered and built by SRP or its agents.

This warranty shall be void if damage to or failure to the shade structure is caused by contact with chemicals, chlorine, bleaching agents, hydrocarbons or hydrocarbon containing solvents, misuse, vandalism, or any act of God, including but not limited to wind in excess of the wind limitations set forth below.

All fabric tops are warranted for sustained winds up to 76 mph (Hurricane Force 1) and for gusts of up to 3 seconds duration up to 90 mph. Removal of the shade fabric is required if damaging winds are called for. Damage due to snow and/or ice accumulation is not covered by this warranty. Canopies should be removed during the "off season."

These structures have been designed to eliminate any friction between the rafters and the fabric. The warranty will, therefore, be voided if any modification (temporary or permanent) is made to the rafter, cross pieces, or ridge beams, or if the fastening apparatus or canopy are not secured accordingly.

The structural steel frames are covered for a period of twenty years against failure due to rust-through corrosion under normal environmental conditions. Workmanship is warranted for a period of five years.

Structures are warranted for winds up to 90 mph only if shade canopies have been removed as per requirement set forth above in the fabric paragraph. Removal and re-installation must be performed by a qualified person or authorized dealer.

This steel warranty shall be void if damage to the steel frame is caused by the installer or from physical damage, damage by salt spray or sprinkler systems, contact with chemicals, chlorine, pollution, misuse, vandalism, or any act of God.

Aluminum and Steel Frame Waterproof Umbrellas

Although all aluminum and steel frame waterproof umbrellas are designed to withstand high wind speeds and have been engineered/tested in wind speeds which exceed 70 mph, SRP does not recommend or warrant the deployment or use of any collapsible umbrella in wind conditions which exceed 45 mph unless where specifically designated and approved in writing by qualified SRP engineers. Horizon umbrellas outfitted with SRP's additional bracing supports will be warranted for wind conditions up to 60 mph and 3-second wind gusts. SRP's warranty will only cover umbrellas that have been properly secured (installed according to manufacturer's installation instructions with a level canopy and plum column) to an approved footer or other approved mounting system. SRP recommends that all retractable umbrellas be securely closed when not in use.

SRP's Cabanas are designed to withstand high wind speeds and have been engineered/tested in wind speeds which exceed 90 mph. However, SRP does not recommend the use of any Cabana in wind conditions which exceed 75 mph unless where specifically designated and approved in writing by qualified SRP engineers. SRP's warranty will only cover Cabanas that have been properly secured to an approved footer or other mounting system.

Waterproof Hypar, Wavecrest, Panorama, and Custom Structures

SRP's fixed waterproof structures are warranted for sustained winds up to 76 mph (Hurricane Force 1) and for gusts of up to 3 seconds duration and up to 90 mph. Removal of the shade fabric is required if damaging winds are called for. Damage due to snow and/or ice accumulation is not covered by this warranty. Canopies should be removed during the "off season." SRP will only warranty products which are properly secured to a footer according to engineering drawings or approved anchoring system.

Further, SRP will not cover any damage to any umbrella frame, canopy, shade, or base device which occurs as a result of contact with the ground or any other foreign object including damage which occurs as a result of sudden and severe weather events or other extreme acts of nature.

Please contact SRP directly if requesting products and mounting foundations to be warranted in sustained wind conditions which exceed the stated warranties per each model.

Cancellation, Return, and Shipping Policy

To view our return policy, please visit superiorrecreationalproducts.com/returns. To view our shipping policy, please visit superiorrecreationalproducts.com/shipping. For information on return material authorizations or any additional information, please call 1.800.327.8774.

**For the purpose of this warranty, lifetime encompasses no specific term of years, but rather that seller warrants to its original customer for as long as the original customer owns the product and uses the product for its intended purpose that the product and all parts will be free from defects in materials and manufacturing workmanship. This warranty does not cover damage caused by vandalism, misuse or abuse, altered or modified parts, or cosmetic damage such as scratches, dents, or fading or weathering and normal wear and tear. This warranty is valid only if the structures are installed in conformity with instructions provided by Superior Recreational Products using approved Superior Recreational Products parts. Superior Recreational Products will deliver the repaired or replacement part or parts to the site free of charge, but will not be responsible for labor or the labor costs of replacement. Warranty claims must be filed within the applicable warranty period and accompanied by a sales order or invoice number.*
